ABOUT

Computer Engineering graduate and junior IT specialist targeting IT Support, System Administration, and Network Management roles. Gained hands-on experience in user support, hardware troubleshooting, and software installation during internships at Izmit Municipality and Bcode Software. Completed practical training in network infrastructure (LAN/WAN, DNS/DHCP, VLAN), Windows Server 2019/2022, Active Directory, GPO, backup & restore, and Linux basics. Holds foundational knowledge in ISO 27001 and KVKK. Ready to contribute to enterprise IT operations.

EXPERIENCE

IT Support Intern

Izmit Municipality | Izmit, Kocaeli | 2 months

- Provided IT infrastructure support and participated in user troubleshooting processes.
- Diagnosed hardware failures, performed software installations and user account management.

Software Development Intern

Bcode Software Inc. | Bursa | 3 months

- Supported software development processes and gained team-based project experience.
